SUPPLEMENTARY ONLINE MATERIAL FOR

New systematic insights about Plio-Pleistocene moles from Poland

Gabriele Sansalone, Tassos Kotsakis, and Paolo Piras

Published in *Acta Palaeontologica Polonica* 2016 61 (1): 221–229.

<http://dx.doi.org/10.4202/app.00116.2014>

Supplementary Online Material

SOM 1. List of the specimens used in the GM analysis.

SOM 2. Measurements of the material of *Rzebikia polonica* and *Rzebikia skoczeni*.

SOM 3. List of the localities and relative ages where *Q. europaea*, *Rzebikia skoczeni* gen. nov. and *Rzebikia polonica* gen. nov. are present.

SOM 4. Wrapper functions used.

SOM 1

List of the specimens used in the GM analysis. Abbreviations: IVPP, Institute of Vetebrate Paleontology and Paleoanthropology, Beijing, China; ISEZ-PAN, Institute of Systematics and Evolution of Animals –Polish Academy of Sciences, Kraków, Poland; UCMP, University of California, Museum of Paleontology, Berkeley, USA; LACM, Los Angeles County Museum, Los Angeles, USA.

Species	Code	Museum	Locality
<i>Quyania chowi</i>	6453.1.26, 6453.1.94	IVPP	Ertemte 2, China
<i>Rzebikia polonica</i>	MF/1015/23, MF/1015/24, MF/1015/25, MF/1015/26, MF/1017/9, MF/1018/24	ISEZ-PAN	Rębielice Królewskie 1A, Zamkowa Dolna Cave C, Kielniki 3B, Poland
<i>Neurotrichus gibbsii</i>	no code, 123766a, 123766b, 115.37.16, 115.37.17, 93940, 93942, 93943, 93944, 86880b, 86880c	UCMP; LACM	Lane County, Bodega Bay, USA
<i>Urotrichus dolichochir</i>	69136a, F-38, 69015, P6-1067, 69136b	Lyon Université, France; Augsburg NaturMuseum, Germany	La Grive, France; Petersbuch 6, Germany
<i>Urotrichus talpoides</i>	29116, 28206, 20661, 28207, 29456, 20169, 20690, 28208, 20618, 20623, 20620, 29455	National Museum of Nature and Science, Tsukuba, Japan	Japan
<i>Dymecodon pilirostris</i>	27443, 27459, 27449, 27450, 27455, 29144, 20621, 29113	National Museum of Nature and Science, Tsukuba, Japan	Japan

SOM 2

Measurements (in mm) of the material of *Rzebikia polonica* and *Rzebikia skoczeni*. The measurements taken follow Skoczeń (1980; 1993). Abbreviations: L, length; W, width, N, sample amount.

Locality	Material	N	Measure	Min	Mean	Max
<i>Rzebikia polonica</i>						
Rębielice Królewskie 1A	P ⁴	1	L W1 W2		1.7 0.8 1.22
