

**Volume 43 Number 1** (published March 1998)

**Rodney M. Feldmann and Andrzej Gaździcki**

Cuticular ultrastructure of fossil and living homolodromiid crabs  
(Decapoda: Brachyura) ..... 1–19

**Jørn H. Hurum**

The braincase of two Late Cretaceous Asian multituberculates studied  
by serial sections ..... 21–52

**Aidar Zhylkaidarov**

Conodonts from Ordovician ophiolites of central Kazakhstan ..... 53–68

**Horacio Parent**

Upper Bathonian and lower Callovian ammonites from Chacay Melehué  
(Argentina) ..... 69–130

**Brief report**

Humeral torsion in multituberculate mammals: Zofia Kielan-Jaworowska .... 131–134

**Editorial note**

Quotation of Russian references ..... 20

**Volume 43 Number 2** (published June 1998)

**Preface by Grzegorz Racki**

The Late Devonian bio-crisis and brachiopods: Introductory remarks ..... 135–136

**Paul Copper**

Evaluating the Frasnian-Famennian mass extinction: Comparing  
brachiopod faunas ..... 137–154

**Jed Day and Paul Copper**

Revision of latest Givetian–Frasnian Atrypida (Brachiopoda) from  
central North America ..... 155–204

**Jed Day**

Distribution of latest Givetian–Frasnian Atrypida (Brachiopoda)  
in central and western North America ..... 205–240

**Jacques Godefroid and Stefan Helsen**

The last Frasnian Atrypida (Brachiopoda) in southern Belgium ..... 241–272

**Grzegorz Racki and Andrzej Baliński**

Late Frasnian Atrypida (Brachiopoda) from Poland and the  
Frasnian-Famennian biotic crisis ..... 273–304

<b>Maria A. Rzhonsnitskaya, Boris P. Markovskii, Yulia A. Yudina, and Elena V. Sokiran</b>	
Late Frasnian Atrypida (Brachiopoda) from the South Urals, South Timan and Kuznetsk Basin (Russia) .....	305–344
<b>Ma Xueping</b>	
Latest Frasnian Atrypida (Brachiopoda) from South China .....	345–360
<b>Tatjana A. Grunt and Grzegorz Racki</b>	
Late Frasnian Athyridida (Brachiopoda) from Poland and the Late Devonian biotic turnover .....	361–378
<b>Paul Sartenaer, Grzegorz Racki and Michał Szulczewski</b>	
The late Frasnian rhynchonellid genus <i>Pammegetherhynchus</i> (Brachiopoda) in Poland, and its relevance to the Kellwasser Crisis .....	379–394
<b>Grzegorz Racki</b>	
The Frasnian-Famennian brachiopod extinction events: A preliminary review .....	395–411

### **Volume 43 Number 3** (published September 1998)

<b>Zofia Kielan-Jaworowska and Demberlyin Dashzeveg</b>	
Early Cretaceous amphilestid ('triconodont') mammals from Mongolia .....	413–438
<b>Jan Rees</b>	
Early Jurassic selachians from the Hasle Formation on Bornholm, Denmark ..	439–452
<b>James D. Gardner and Alexander O. Averianov</b>	
Albanerpetontid amphibians from the Upper Cretaceous of Middle Asia .....	453–467
<b>Olle Hints</b>	
Late Viruan (Caradoc) polychaete jaws from North Estonia and the St. Petersburg region .....	471–516
<b>Arkadiusz Głuszek</b>	
Trace fossils from Late Carboniferous storm deposits, Upper Silesia Coal Basin, Poland .....	517–546
<b>Book review</b>	
Leonid P. Tatarinov: Non-marine Cretaceous vertebrates of the former USSR .....	468–470
<b>Paper review</b>	
Magdalena Borsuk-Białynicka: Why complicate anatomical terminology? .....	547–548

### **Volume 43 Number 4** (published December 1998)

<b>Adam Urbanek</b>	
Oligophyly and evolutionary parallelism: A case study of Silurian graptolites .....	549–572

<b>Susan E. Evans and Magdalena Borsuk-Białynicka</b>	
A stem-group frog from the Early Triassic of Poland .....	573–580
<b>Kenneth A. Kermack, Doris M. Kermack, Patricia M. Lees, and John R.E. Mills†</b>	
New multituberculate-like teeth from the Middle Jurassic of England .....	581–606
<b>Marcin Machalski</b>	
Oyster life positions and shell beds from the Upper Jurassic of Poland .....	609–634
<b>Øyvind Hammer</b>	
Regulation of astogeny in halysitid tabulates .....	635–651
<b>Piotr Łuczyński</b>	
Stromatoporoid morphology in the Devonian of the Holy Cross Mountains, Poland .....	653–663
<b>Book review</b>	
Kazimierz Kowalski: Taming the shrew .....	607–608
<b>Editorial note</b>	
Quotation of Russian references .....	652
