

Volume 44 Number 1 (published March 1999)

Colin W. Stearn, Barry D. Webby, Heldur Nestor, and Carl W. Stock Revised classification and terminology of Palaeozoic stromatoporoids	1–70
Alexander Averianov and Zofia Kielan-Jaworowska Marsupials from the Late Cretaceous of Uzbekistan	71–81
Gertruda Biernat and David A.T. Harper A lingulate brachiopod <i>Acrotretella</i> : New data from Ordovician of Poland	83–92
Andrzej Kaim and Robert Niedźwiedzki Middle Triassic ammonoids from Silesia, Poland.	93–115
Editorial note Quotation of Russian references	82

Volume 44 Number 2 (published June 1999)

Józef Kazmierczak and Yasufumi Iryu Cyanobacterial origin of microcrystalline cements from Pleistocene rhodoliths and coralline algal crusts of Okierabu-jima, Japan	117–130
Ewa Roniewicz and Jarosław Stolarski Evolutionary trends in the epithecate scleractinian corals.	131–166
Magdalena Borsuk-Białynicka, Elizabeth Cook, Susan E. Evans, and Teresa Maryańska A microvertebrate assemblage from the Early Triassic of Poland	167–188
Rinchen Barsbold and Halszka Osmólska The skull of <i>Velociraptor</i> (Theropoda) from the Late Cretaceous of Mongolia	189–219
Mieczysław Wolsan Oldest mephitine cranium and its implications for the origin of skunks	223–230
Discussion J. David Archibald: Pruning and grafting on the mammalian phylogenetic tree	220–222
Brief report Gerard Gierliński: Tracks of a large thyreophoran dinosaur from the Early Jurassic of Poland	231–234
In memoriam J. John Sepkoski Jr. (1948–1999)	235–236

Volume 44 Number 3 (published September 1999)

- Matthew T. Carrano, Christine M. Janis, and J. John Sepkoski, Jr.†**
Hadrosaurs as ungulate parallels: Lost lifestyles and deficient data 237–261
- Wighart v. Koenigswald, Francisco Goin, and Rosendo Pascual**
Hypsodonty and enamel microstructure in the Paleocene gondwanatherian mammal *Sudamerica ameghinoi* 263–300
- Roger A. Hewitt and John W.M. Jagt**
Maastrichtian *Ceratisepia* and Mesozoic cuttlebone homeomorphs. 305–326
- Martin Ivanov**
The first European pit viper from the Miocene of Ukraine. 327–334
- Andrzej Baliński and Lars E. Holmer**
The Late Devonian trematid lingulate brachiopod *Schizobolus* from Poland 335–346
- Book review**
Jerzy Trammer: Report of the Last Mohican 262
- Brief report**
Alexander Avarianov: A new species of multituberculate mammal *Uzbekbaatar* from the Late Cretaceous of Uzbekistan 301–304
- Paper review**
Marcin Machalski: Mosasaur bites or punctured limpet home scars? 347–348

Volume 44 Number 4 (published December 1999)

- Magdalena Borsuk-Białynicka, Mariusz Lubka, and Wolfgang Böhme**
A lizard from Baltic amber (Eocene) and the ancestry of the crown group lacertids 349–382
- Ewa Olempska**
Silicified shallow-water ostracodes from the Early Carboniferous of South China. 383–436
- Andrzej Baliński**
Brachiopods and conodonts from the Early Carboniferous of South China. 437–451
- Andrej Yu. Ivantsov**
Trilobite-like arthropod from the Lower Cambrian of the Siberian Platform. 455–466
- Discussions**
Michał Kowalewski: Actuopaleontology: The strength of its limitations. 452–454
Grzegorz Racki and Andrzej Baliński: The impact factor of *Acta Palaeontologica Polonica*. 467–472
