

On a new stylophyllid genus, *Pamirophyllum* (Scleractinia, Upper Triassic)

Galina K. Melnikova and Ewa Roniewicz *Acta Palaeontologica Polonica* 35 (1-2), 1990: 85-90

Genus *Pamitophyllum* nov. is known in the upper Norian of the Pamirs and Central Iran, while in the Rhaetian of the Tatra Mountains. Perfectly cerioid colonies with simple intercorallite walls of a septal origin additionally completed

by auxilliary septal spines are characteristic of these corals. A new species, *P. tatricum* Roniewicz, has been described from the Tatra Mts.

Key words: Scleractinia, Stylophyllidae, taxonomy, Upper Triassic, Pamirs, Central Iran, Carpathians.
