

Foraminifers from the Middle Devonian of the Holy Cross Mountains

Stanisława Duszyńska

Acta Palaeontologica Polonica 01 (1), 1956: 23-34

Description is given of three species of Devonian (Givetian) foraminifers, never before collected in Poland. These specimens represent forms with a wide:geographical and stratigraphic range. Identical or similar forms have been yielded by rocks from the Middle and Upper Devonian of Europe and from the Upper Devonian of North America.
