

Upper Ordovician brachiopods from Poland and Britain

John T. Temple

Acta Palaeontologica Polonica 10 (3), 1965: 379-427

The brachiopods of the Upper Ordovician *Hirnantia* fauna from the Holy Cross Mountains of Poland (Góry Świętokrzyskie) are described. The fauna, which includes one new genus (*Plectothyrella*) and four new species (*Philhedra? stawyensis*, *Hirnantia? kielanae*, *Platymena? polonica*, *Plectothyrella platystrophoides*), is compared with occurrences from North Wales and the English Lake District.
