

## A new genus of sporomorphs from the Zechstein deposits of Poland

Halina Kotańska

*Acta Palaeontologica Polonica* 15 (1), 1970: 153-158

Pollen grains, unknown so far and which have been assigned by the present writer to *Parmasporites unicus* n. sp. and *P. spectabilis* n. sp. of the new genus *Parmasporites*, were found in the Zechstein deposits of cyclothem Z3 from borings in the Holy Cross Mountains and Lower Silesia.
