

Issue 1 (published February 2004)

Chongyu Yin, Stefan Bengtson, and Zhao Yue

- Silicified and phosphatized *Tianzhushania*, spheroidal microfossils of possible animal origin from the Neoproterozoic of South China 1–12

Ryszard Wrona

- Cambrian microfossils from glacial erratics of King George Island, Antarctica 13–56

Björn Kröger

- Revision of Middle Ordovician orthoceratacean nautiloids from Baltoscandia 57–74

Błażej Berkowski

- Monospecific rugosan assemblage from the Emsian hydrothermal vents of Morocco 75–84

Nikolaus Malchus

- Early ontogeny of Jurassic bivalve shells and their bearing on bivalve evolution 85–110

Thorsten Kowalke and Mathias Harzhauser

- Early ontogeny and palaeoecology of the Mid-Miocene rissoid gastropods of the Central Paratethys 111–134

Sergey Moloshnikov

- Crested antiarch *Bothriolepis zadonica* H.D. Obrucheva from the Lower Famennian of Central European Russia 135–146

Juozas Valiukevičius

- New Wenlock–Pridoli (Silurian) acanthodian fishes from Lithuania 147–160

Eric G. Ekdale, J. David Archibald, and Alexander O. Averianov

- Petrosal bones of placental mammals from the Late Cretaceous of Uzbekistan 161–176

Issue 2 (published April 2004)

Zofia Kielan-Jaworowska and Terry E. Lancaster

- A new reconstruction of multituberculate endocranial casts and encephalization quotient of *Kryptobaatar* 177–188

Manuel J. Salesa, Israel M. Sánchez, and Jorge Morales

- Presence of the Asian horse *Sinohippus* in the Miocene of Europe 189–196

Jerald D. Harris and Peter Dodson

- A new diplodocoid sauropod dinosaur from the Upper Jurassic Morrison Formation of Montana, USA 197–210

Gerald Mayr and Ilka Weidig

- The Early Eocene bird *Gallinuloides wyomingensis*—a stem group representative of Galliformes 211–217

Johan Lindgren and Mikael Siverson

- The first record of the mosasaur *Clidastes* from Europe and its palaeogeographical implications 219–234

Christian Klug and Dieter Korn

- The origin of ammonoid locomotion 235–242

Christian Klug and Achim Lehmkuhl

- Soft-tissue attachment structures and taphonomy of Middle Triassic nautiloid *Germanonutilus* 243–258

Zhifei Zhang, Jian Han, Xingliang Zhang, Jianni Liu, and Degan Shu

- Soft-tissue preservation in the Lower Cambrian linguloid brachiopod from South China 259–266

Yuanlin Sun, Andrzej Baliński, Xueping Ma, and Yubo Zhang

- New bizarre micro-spiriferid brachiopod from the Early Carboniferous of China 267–274

Dmitry A. Ruban

- Diversity dynamics of Early–Middle Jurassic brachiopods of Caucasus, and the Pliensbachian–Toarcian mass extinction 275–282

André Nel, Julián F. Petrulevicius, and Michel Henrotay

- New Early Jurassic sawflies from Luxembourg: the oldest record of Tenthredinoidea (Hymenoptera: “Symphyta”) 283–288

Tadeusz Ptaszyński and Grzegorz Niedźwiedzki

- Late Permian vertebrate tracks from the Tumlin Sandstone, Holy Cross Mountains, Poland 289–320

Brief reports

Halszka Osmólska

- Evidence on relation of brain to endocranial cavity in oviraptorid dinosaurs 321–324

Suvi Viranta

- Habitat preferences of European Middle Miocene omnivorous ursids 325–327

Issue 3 (published July 2004)

Takehisa Tsubamoto, Guillermo W. Rougier, Shinji Isaji, Makoto Manabe, and Analía M. Forasiepi New Early Cretaceous spalacotheriid “symmetrodont” mammal from Japan	329–346
Rodolphe Tabuce, Monique Vianey-Liaud, and Géraldine Garcia A eutherian mammal in the latest Cretaceous of Vitrolles, southern France	347–356
Gerhard Storch and Zhuding Qiu First complete heterosoricine shrew: A new genus and species from the Miocene of China	357–363
William J. Sanders, John Kappelman, and D. Tab Rasmussen New large-bodied mammals from the late Oligocene site of Chilga, Ethiopia	365–392
Susan E. Evans, Pasquale Raia, and Carmela Barbera New lizards and rhynchocephalians from the Lower Cretaceous of southern Italy	393–408
Michał Ginter and Agnieszka Piechota The first Devonian holocephalian tooth from Poland	409–415
Mags Duncan Chondrichthyan genus <i>Lissodus</i> from the Lower Carboniferous of Ireland	417–428
Ewa Olempska Late Triassic spinicaudatan crustaceans from southwestern Poland	429–442
Alan P. Hoffmeister, Michał Kowalewski, Tomasz K. Baumiller, and Richard K. Bambach Drilling predation on Permian brachiopods and bivalves from the Glass Mountains, west Texas	443–454
Petras Musteikis and L. Robin M. Cocks Strophomenide and orthotetide Silurian brachiopods from the Baltic region, with particular reference to Lithuanian boreholes	455–482
Discussion Stephen K. Donovan and Ron K. Pickerill Traces of cassid snails predation upon the echinoids from the Middle Miocene of Poland: Comments on Ceranka and Złotnik (2003).....	483–484

Issue 4 (published October 2004)

Adam Urbanek Morphogenetic gradients in graptolites and bryozoans	485–504
Anna Kozłowska-Dawidziuk Evolution of retiolitid graptolites—a synopsis	505–518
Piotr Mierzejewski and Adam Urbanek The morphology and fine structure of the Ordovician <i>Cephalodiscus</i> -like genus <i>Melanostrophus</i>	519–528
Jarosław Stolarski, Ewa Roniewicz, and Tomasz Grycuk A model for furcate septal increase in a Triassic scleractiniamorph	529–542
John S. Peel <i>Pinnocaris</i> and the origin of scaphopods	543–550
John M. Malinky and Christian B. Skovsted Hyoliths and small shelly fossils from the Lower Cambrian of North-East Greenland	551–578
David Penney Cretaceous Canadian amber spider and the palpimanoidean nature of lagonomegopids	579–584
Pascal Godefroit, Yuri L. Bolotsky, and Jimmy Van Itterbeeck The lambeosaurine dinosaur <i>Amurosaurus riabinini</i> , from the Maastrichtian of Far Eastern Russia	585–618
Jennifer Botha and Anusuya Chinsamy Growth and life habits of the Triassic cynodont <i>Trirachodon</i> , inferred from bone histology	619–627
Max Wisshak, Eden Volohonsky, and Dierk Blomeier Acanthodian fish trace fossils from the Early Devonian of Spitsbergen	629–634
Brief report Linda Hints Maximizing diductor adhesion: An unusual cardinal process in Late Ordovician brachiopods from Estonia	635–638
Contents of Volume 49	639–640
