

***Geoemyda eureia* (Wegner), Testudines, Emydidae, from a new locality in Poland**

Marian Młynarski

Acta Palaeontologica Polonica 04 (1), 1959: 91-100

A description is here given of remains of *Geoemyda eureia* (Wegner) from Rębielice Królewskie near Kłobuck, which is the third locality of this fossil species in Polish territory. Other fossil representatives of genus *Geoemyda* are also discussed and some comments made on the biology of *G. eureia* (Wegner) and its habitat.
