ACTA PALAEONTOLOGICA POLONICA

Syringella - a new genus of the family Syringoporidae (Tabulata) from the Devonian of Poland

Aleksander Nowiński
Acta Palaeontologica Polonica 15 (4), 1970: 539-544

A new genus *Syringella* of the family Syringoporidae from the Devonian of Sowie Górki in the Holy Cross Mountains has been established and described on the basis of numerous vesicles in the walls of corallites, of a very thick-walled axial canal and of septal spines which occur in the walls of corallites and walls of axial canals.
