

Conodonts of the genus *Misikella* Kozur and Mock, 1974 from the Rhaetian of the Tatra Mts (West Carpathians)

Andrzej Gaździcki

Acta Palaeontologica Polonica 23 (3), 1978: 341-350

Rhaetian conodonts are reported for the first time from the Tatra Mts. Two conodont species: *Misikella posthernsteini* Kozur and Mock, 1974, and *Misikella* sp. A, found in the sub-tatric (Choc) Rhaetic cropping out at the foot of Siwianskie Turnie, are described and figured. The stratigraphic position and value of these conodonts is discussed on the background of foraminifer zonal scheme.
